### Z. Clean Code

time limit per test: 1 second?

memory limit per test: 256 megabytes

Given a source code in C++. Print the source code after cleaning it as follows :

1. If there are comments you have to remove them all whether it's a single comment (e.g. : //) or a block comment (e.g.: /\* \*/).
2. If there are any blank lines or lines consists of spaces you must remove them all.

See the test cases carefully for more clarifications.

#### Input

Source code in C++ (maximum number of lines is 50).

#### Output

Print the clean code according to the problem statement.

#### Example

input

Copy

```
// I am a single comment and you must remove me :((
/*
I am a block comment and you must remove me
*/

#include<iostream>
using namespace std;

int main() {
```

[Group website](#)

```
int a, b;
cin » a » b; // Reading two variables from user (please remove me!! :( )
cout « a + b « endl;

// End of the program (remove me please :))
return 0;

}
```

**output**[Copy](#)

```
#include<iostream>
using namespace std;
int main() {
int a, b;
cin » a » b;
cout « a + b « endl;
return 0;
}
```

**Note**

Please be careful in handling the priority of comments.

Comment symbols may be included in comments and it's not guaranteed that the resulting source code is a valid C++ syntax.

[→ About Time Scaling](#)

This contest uses time limits scaling policy (depending on a programming language). The system automatically adjusts time limits by the following multipliers for some languages. Despite scaling (adjustment), the time limit cannot be more than 30 seconds. Read the details by the [link](#).

## → Virtual participation

Virtual contest is a way to take part in past contest, as close as possible to participation on time. It is supported only ICPC mode for virtual contests. If you've seen these problems, a virtual contest is not for you - solve these problems in the archive. If you just want to solve some problem from a contest, a virtual contest is not for you - solve this problem in the archive. Never use someone else's code, read the tutorials or communicate with other person during a virtual contest.
